SUMMARY

As a Software Engineering, I am passionate about creating elegant and efficient web solutions. My journey has led me to explore both front-end and back-end technologies, allowing me to craft seamless user experiences. I thrive on challenges and aspire to contribute to innovative projects that positively impact people's lives.

EXPERIENCE

STUDENT MANAGEMENT APPLICATION

Vaasa, Finland

Sep 2023 - Dec 2023

The application serves as a centralized platform for educational institutions to manage student information, course offerings, and enrollment activities. It provides an interactive interface for users to access and manipulate academic records, facilitating efficient administration and personalized education experiences.

Languages and Tool : HTML, CSS, JavaScript, ReactJS framework, Java Spring Boot, PostgreSQL, MariaDB

POPUPPRO | VAMK - WATASILA

Vaasa, Finland

Front-end Developer | Sep 2023 - Dec 2023

Designed and implemented an application that can integrate with other web applications and provide popup notifications for error and bug management. The project also offers new features for customizing the popup appearance and content. The project ensures high-quality performance and user satisfaction.

Languages and Tool: HTML, CSS, TypeScript, ReactJS framework, PostgreSQL, Figma
